Investment Strategy

The investment policy of the Fund is aimed to produce a long-term capital appreciation and an over-performance vs. the benchmark. The Fund manager uses a wide spectrum of techniques in order to obtain the best allocation possible among markets and asset classes and in order to select the most performing companies. The Fund invests primarily in equities listed in the American, European and Asian core markets. The Fund can diversify up to 49% of NAV in equities listed in emerging markets, up to 49% of NAV in investment grade government and corporate bonds and up to 30% of NAV in sub-investment grade government and corporate bonds. All the investments are realized in accordance to UCITS standards.

The Management Company

Woodpecker Capital Asset Management is a privately owned-independent company based in Luxembourg. The partners of the company have spent their entire career in the mutual fund business before setting up the company and launching the fund. Currently we manage an umbrella Fund issued under the UCITS standards. The company is co-promoted by BCEE (Banque et Caisse d'Epargne de l'Etat), a bank 100% owned by the Grand Duchy of Luxembourg, that is also the custodian of the Fund assets. The success of the company means the success of our clients. For additional information please visit www.woodpeckercapital.com.
